

Kyle Hall

COVER LETTER

A passion for innovating is what is going to move the next generation forward. I strongly agree that hard work, determination and setting goals for yourself is what makes or breaks a good designer. For example, my goal for myself is to enhance my CSS/HTML to be from skilled to expert by taking online courses. Being proactive than a reactive designer. I'm a self starter, highly motivated, dynamic team player with lots of passion for design and technology. I'm a tech nerd at heart given I have worked for the best tech company in the world, Apple. What's better than being surrounded by people who have the same passion than you do?

I recently came across your advertisement for the freelance graphic design position, and would like to submit my resume and portfolio for the advertised post. You can view my online portfolio at www.kylephall.com. I have an extensive portfolio ranging from digital media to print media for multiple industries which would be an ideal pick for your agency to do freelance. My work shows my thought and building process which I feel is more powerful than just viewing the finished product.

A Versatile, highly creative and multi-talented Graphic Designer and Illustrator with over 10 years of experience in multimedia, marketing and print & digital design. Exceptional collaborative and interpersonal skills; dynamic team player with well-developed written and verbal communication abilities. Highly skilled in client and vendor relations and negotiations; talented at building and maintaining close partnerships. Passionate and inventive creator of effective marketing strategies and campaigns; accustomed to performing in deadline-driven environments with an emphasis on working within budget requirements.

Thanks for your time and efforts. I look forward to hearing from you soon.
